## Performance of the institution

Gram Vikas Sanstha's Arts College Bamkheda is located in rural, tribal and educationally backward region. The college provides ICT facility to the students, who are the first generation learners from their family. Higher education is special for them and ICT fascinates them more. The college has faculty of Humanities but use of ICT tools and content development is the recognition of the college. It is said that we are living in the age of Information and communication technology. If anybody is unaware of the information and communication technology he is a real illiterate. Keeping in this mind the management of the college has developed ICT facility in the college having arts faculty.

The college has many ICT tools namely:-

1. Smart boards
2. Projectors
3. Wi-Fi
4. Google classrooms of every teacher
5. Whats app groups
6. YouTube channel
7. PPT bank
8. SWAYAM SUCCOR CENTER

#### 1. Smart Boards

Use of smart board from 2012 in the departments made the college special and hence departments from the Parent University and renowned colleges from North Maharashtra region also visited to spot the development. All the committees visiting the college admire the ICT developments. The main benefit of the ICT tools is that students became attentive and alert. Power point presentation has become a common practice of most of the teachers in India. Our teachers have power point presentations but they are hand written. Power point presentation in the teacher's calligraphy is true digitalization. Our writing becomes digital with the help of these smart boards. Power point presentations don't allow inserting new idea at the time of teaching but with the help of these boards we modify our presentations every time we teach.

#### 1. Google Classrooms

Ours is the only college in which every faculty member has a Google classroom for teaching. We provide the codes to every student through What's App group and notice boards. Most of the study material is shared through Google classroom. Videos and expert lectures are also shared for extensive study through Google classroom. Our teachers have reached the doors of students. Teachers are in the hands of students to serve them knowledge at any time. This is what is called flipped Classroom.

### 1. Swayam Succor Center

The students don't have television in the home when find digital boards and projector and educational videos feel proud and enjoy the environment. The college is aware that many students have no access to internet and other related technical tools even android mobile.

Less than ten percent students of this college have the android mobiles. The management of the college is insightful and hence made an arrangement for the students in the college.

SWAYAM SUCCOR CENTER is the unique conception of the management of the college.

A center has been established to disseminate UGC's wonderful initiative in education,

SWAYAM. Students can have admittance to the first class teachers in India at no cost. This

center is also free for all students. They can use the facility during college hours and after college hours. They need not go to the internet café. Swayam mentor is responsible for

managing the center.

### 1. Language Lab/ Content Development Lab

The college has a language lab where content development is a regular practice. Lectures are recorded. Educational videos are developed with the help of internet to simplify the difficult topics from syllabus. Students can record their own accent and compare with others using the language lab. It is a fun for them. They enjoy the interactive sessions. Listening, speaking, reading and writing with the language lab is unique experience for our students.

### 1. ICT having Human Touch

It is believed that technology has widened the gap between persons. People are close but internally they are far away. But use of technology has developed bondage among the

students and college as well as teachers. Students stay in the departments till 3 P.M. even though the college timing is up to 1.00 P.M. This college is sensitive about the needs of the Adiwasi community and poor people. They not only need good education but also emotional warmth. This college provides them the warmth needed. They feel free and develop themselves in the cocoon they desire. Every teacher manages personal relation with the parents through mobile and personal visits. The college has limited students' strength but is the real strength of the college. College pays personal attention to every student.

### 1. Whats App Groups

This college very effectively implements the mentor scheme. Every teacher is asked to develop a whats app group to join their mentee. Most of the students don't have the android mobile phones. One mobile in a family is the situation, still whats app groups organised because every college related information is shared through these groups to students and parents.

Our alumni whats app group is very active. Alumni students keep an eye on the college activities through this group and support the college as and when needed.

### 1. Conclusion

ICT development in the college having only arts faculty is because of the compassion for poor, tribal, educationally backward students and society in large.
